down on the latter and hold them in contempt, their theory being that the Maroons were never slaves to the English. When the Spaniards finally quitted Jamacia, after a guerilla warfare that lasted for three years, they left behind them a certain number of their slaves, to whom they gave liberty conthe understanding that the black men would wage unceasing war against the English interlopers. These free slaves retreated to the mountains, where they secured positions inaccessible to the English soldiers, and, with willing fidelity to the oath given them by their Spanish masters, they were in the habit of sallying forth, killing, when possible, the new arrivals, destroying crearrying off their property. When such raids became unbearingly aggressive, expeditions were organized and bodies of troops and militia were sent to reof troops and militia were sent to re-

duce the Maroons to order. These expeditions are known in Jamacia history as the Maroons wars, which continued with more or less frequency for over a century. Meanwhile, the Maroons wars delle incomplete the suit of Fennsylvania Central Brewing association vs. T. U. Spargenburg. Debt. 5180.75. Judgment No. 1319. September Term. 1898. who must have been numerous, for it was calculated, at one time, that in the town of Jamacha alone 20,000 runaway slaves were living, successfully eluding all attempts made to apprehend them. There is no record as to how many took refuge with the Marons, but the number must have been considerable, and largely consisted of Coromantees. The Coromantees was a trible so fierce and turbulent that after disastrous experience of the difficulty and risk of attempting to turn Coromantees into satisfactory investments in the island, the Jamaica legislature in "slavery days" passed a law forbidding the importation of any more of the tribe.

The Trelawney town Marons, the chief offenders being banished to Nova Scotia after their subjection by blood hounds, the inhabitants of the other Maroon settlements were left undisturbed and their descendants still remain in Jamaica. Their privileges have been respected and they have proved themselves faithful allies and friends of the white people of the island. In slavery days they received a reward for every runaway slave brought back by them. Their zeal in obtaining such reward was unflagging, rendering them objects of dread to the slaves and keeping with elicities.
